Hi Dan,

I updated the month on both contracts to April, do you want to move forward with obtaining signatures from Housing Authority and we will get these executed and then you can coordinate with Flock for the LPRs?

Thank you,

Sara

Hi Jeff,

Below are links to the shared drafts for our proposed contract for the LE services as well as the addendum you helped us prepare. I figured it might be best to keep two separate items but thought if we could coordinate terms it would make life easier, but if this structure isn't the right approach, please feel free to suggest/edit as necessary. We'd like to push these both out as soon as possible as the current contract for LE services technically expired in January, 2021 and I know Commander Cohen is

anxious to move forward with Flock as well on the LPRs. Thank you for all your assistance with this item.

Subject: Housing Authority License Plate Readers

Jeff –

Per our conversation I have attached the three documents I have been working from.

The attached Word document, LE Services Agreement, is the now expired agreement SMPD had with the Housing Authority to provide extra patrols to their properties on an overtime basis. We would like to renew this agreement, but add in new services to cover their desire to fund LPRs on their properties.

The attached Word document, Housing Authority Agreement, is my attempt to capture what we would like to accomplish with the LPRs. Clearly deficient, and in need of some attorney

attention.

The attached PDF is an example of a Flock Safety agreement. It might work well to have SMPD enter into contract with Flock, then attach and incorporate that contract into our agreement with the Housing Authority so all the nuances are captured.

Any assistance you could provide would be appreciated.

Thank you,

Dan
